

Sørøya Havfiske Cruise

Your main hosts on board MB Havcruise are Gulli Monika Pedersen and Cato Hanssen. Cato is from an engineering background and in addition to running his own company has previously worked as a company electrician and as an inspector for municipal engineering in private companies. He is a qualified deck officer class 3 and is very experienced at sea. He is also an excellent fishing guide and very good at finding the right spot to view the Northern Lights.

Gulli's background is in accountancy and the hotel and restaurant trade. She has also studied business and finance, financial management, marketing and travel and therefore we like to think of her as being the real 'chief engineer'!! She is also a qualified deck officer class 3 and is the person who takes care of bookings, liaises with the on-board guide and ensures the kitchen has all the food prepared and ready. Gulli will also occasionally join you for the journey, if all her numerous jobs are done!!
